skype: agne.nevulyte

Nationality Lithuanian

Junior developer, currently working with Javascript, Jekyll, HTML and CSS. Usually spending my spare time in freeCodeCamp.com or udemy.com. Haven't yet mastered frameworks such as Vue.js, React or Angular, but would definitely want to work on them more. Also, looking into several backend languages - Python, Golang or Node.js framework. From deployment perspective - some experience with Docker.

WORK EXPERIENCE

2017 03 – present

Junior Software Developer, Finsa Europe Ltd

<https://finsa-europe.com/>

While at Finsa I worked on many demanding projects including a Javascript financial charting framework, a proprietary trading system and also an Angular.js frontend, attached to Salesforce. I also supported the development team on many other ad-hoc frontend business requirements. While predominantly my assignments were frontend, HTML, CSS and Javascript based, I spent time outside of work also learning backend languages to aid my overall programming skills. Tasks were managed via Jira and I was taught some deployment techniques in line with Agile software development.

2016 09 – present

Software Developer

webhookrelay.com - I was working on a SaaS solution which relays webhooks to internal networks.

2015 09 – 2016 08

Technologist-Manager

<http://mydrinkbeverages.com/>

I was working as Technologist-Manager at this company and my work encompassed: innovation; new product development; recipe optimisation; consulting; participation in meetings and negotiations with suppliers; attending exhibitions; writing articles; control and management of manufacturing process; constant communication with suppliers and partners to hold strong business relations.

Business or sector Consulting/ Food and Beverages/ Manufacturing

Engineer – Chemist

<http://www.volfasengelman.lt/en/>

2015 04 – 2015 09

Kaunas brewery “Volfas Engelman” Plc produces wide assortment of goods - beer, kvass, cider, cocktails with alcohol. I was responsible for the quality of raw materials, process and the final product, as well as for information processing. I also assessed the image of produced goods, monitored the parameters of stability before the expiration date, and reported all discrepancies from determined parameters.

Business or sector Food and Beverages/ Manufacturing/ Quality Control

EDUCATION AND TRAINING

2017 – present

Google Developer Challenge Scholarship

Mobile Web Specialist track.

The course consists of:

Responsive Web Design Fundamentals, Responsive Images, Web Accessibility, Asynchronous JavaScript Requests, ES6 JavaScript Improved, Offline Web Applications, Web Tooling and Automation

2017 – present

FreeCodeCamp

FreeCodeCamp completed courses: HTML & CSS, Responsive Design with Bootstrap, Gear up for Success, equerry, Basic Front End Development Projects, Basic JavaScript, Object Oriented and Functional Programming, Basic Algorithm Scripting, JSON APIs and Ajax, Intermediate Front End Development Projects such as random quote machine and local weather app.

2016 – present

Workshops and talks

I am attending various kind of workshops and meetups about new technologies, developer experiences. It's a great way to improve my knowledge in languages, libraries, tools and frameworks.

2016 – present

Codecademy

Codecademy completed courses: Make a Website, HTML & CSS, Python, JavaScript, jQuery.

2016

Learn Python The Hard Way 3rd edition and Django Girls tutorial

I started learning Python using this book and completed Django Girls tutorial, which lead me to the wider understanding about Python and its frameworks.

2011 – 2015

Kaunas University of Technology, Lithuania Bachelor's degree at Food Science and Technology
